Jakarta Timur, Daerah Khusus Ibukota Jakarta, 13890

An undergraduate student majoring in Mathematics at the University of Indonesia, I am an individual dedicated to continually expanding my experience and knowledge. With a profound interest in the realms of both Mathematics and data, I actively seek opportunities to deepen my understanding and skills in these fields. Eager to embrace new challenges and learning experiences, I am poised to contribute effectively to the intersection of Mathematics and data exploration.

## EDUCATION

### Univeristas Indonesia

*Bachelor in Matematics*

**Jakarta**

2023 - Present

### SMA Islam PB Soedirman

*High School in MIPA*

**Jakarta**

2021 - 2023

- Graduated at acceleration program from PB Soedirman islamic high school majoring in science
